

Introduction

Sha Tin Junior Chamber (SJC) is one of the most energetic and fast-growing Local Organization Members (LOM) among the 18 chapters of the Junior Chamber International Hong Kong (JCIHK), which is affiliated to the U.S.-headquartered non-profit Junior Chamber International (JCI).

SJC is the 17th LOM of JCIHK. It was established by Charter President Norman Cheng with 47 charter members who came from the Lion Rock Jaycees, Tai Ping Shan Jaycees, City One Owners' Committee, and Sha Tin Sports Association in 1987. Currently the SJC has a total of 50 members who are mostly young professionals and entrepreneurs.

SJC inherited the mission of JCI to provide leadership training to young people age between 18 and 40. It includes leadership skills, social responsibility, entrepreneurship and fellowship necessary to create positive change. Throughout the year, we organized over twenty activities such as seminars, workshops, and social gatherings for our members.

In addition, SJC is one of the several LOMs that have close connection with a local district. Members of SJC have an opportunity to serve the Sha Tin community and experience the unique Sha Tin culture. For instance, we participate in the Annual Dragon Boat Race in Sha Tin every year in Dragon Boat Festival.

As a whole, there are four areas of personal development for members, namely, Individual, Community, International and Business.

Four Areas of Opportunity

Individual

Mental Health Camp & Training Workshop

SJC offers leadership workshops and training programs on goal setting, time management, public speaking, parliamentary procedure, protocols, etc. for members. Thereby equip our members with necessary techniques to become future leaders of our community.

In addition, we encourage members "learn by doing it" that is gaining practical experiences through participating in different projects.

Community

Various community development programs are available for members. By taking part in these programs, members learn how to identify social needs and issues, follow by developing projects to improve the well being of the community and thereby enhance their awareness and sensitivity on community problems.
